

Assalamu Alaikum Wa Rahmatullahe Wa Barakatuhu

Bismillahir Rahmanir Rahim

"Reasons why 13 famous scientists converted to Islam and what they found"

It is revealed in the Holy Quran: Sura Al-Mu'minun 23:12 To 14

وَلَقَدْ خَلَقْنَا الْإِنْسَانَ مِنْ سُلَالَةٍ مِّنْ طِينٍ ﴿١٢﴾

Man We did create from a quintessence (of clay); (Sura Al-Mu'minun 23:12)

ثُمَّ جَعَلْنَاهُ نُطْفَةً فِي قَرَارٍ مَّكِينٍ ﴿١٣﴾

Then We placed him as (a drop of) sperm in a place of rest, firmly fixed;
(Sura Al-Muminun 23:13)

ثُمَّ خَلَقْنَا النُّطْفَةَ عَلَقَةً فَخَلَقْنَا الْعَلَقَةَ مُضْغَةً فَخَلَقْنَا
الْمُضْغَةَ عِظْمًا فَكَسَوْنَا الْعِظْمَ لَحْمًا ۖ ثُمَّ أَنشَأْنَاهُ خَلْقًا آخَرَ ۗ
فَتَبَارَكَ اللَّهُ أَحْسَنُ الْخَالِقِينَ ﴿١٤﴾

Then We made the sperm into a clot of congealed blood; then of that clot We made a
(foetus) lump; then we made out of that lump bones and clothed the bones with flesh;
then we developed out of it another creature. So blessed be Allah, the best to create!
(Sura Al-Muminun 23:14)

It is revealed in the Holy Quran: Sura Az-Zumar 39:6

خَلَقَكُمْ مِنْ نَفْسٍ وَاحِدَةٍ ثُمَّ جَعَلَ مِنْهَا زَوْجَهَا وَ أَنْزَلَ
 لَكُمْ مِنَ الْأَنْعَامِ ثَمَنِيَّةً أَزْوَاجًا يُخَلِّقُكُمْ فِي بُطُونِ
 أُمَّهَاتِكُمْ خَلْقًا مِّنْ بَعْدِ خَلْقٍ فِي ظُلُمَاتٍ ثَلَاثٍ ذِكْرُ اللَّهِ
 رَبُّكُمْ لَهُ الْمُلْكُ لَا إِلَهَ إِلَّا هُوَ فَأَنَّى تُصْرَفُونَ ﴿٦﴾

He created you (all) from a single person: then created, of like nature, his mate; and he sent down for you eight head of cattle in pairs: He makes you, in the wombs of your mothers, in stages, one after another, in three veils of darkness. such is Allah, your Lord and Cherisher: to Him belongs (all) dominion. There is no god but He: then how are ye turned away (from your true Centre)? (Sura Az-Zumar 39:6)

It is revealed in the Holy Quran: Sura An-Najm 53:45 To 46

وَأَنَّهُ خَلَقَ الزَّوْجَيْنِ الذَّكَرَ وَالْأُنثَى ﴿٤٥﴾

That He did create in pairs - male and female, (Sura An-Najm 53:45)

مِنْ نُّطْفَةٍ إِذَا تُمْنَى ﴿٤٦﴾

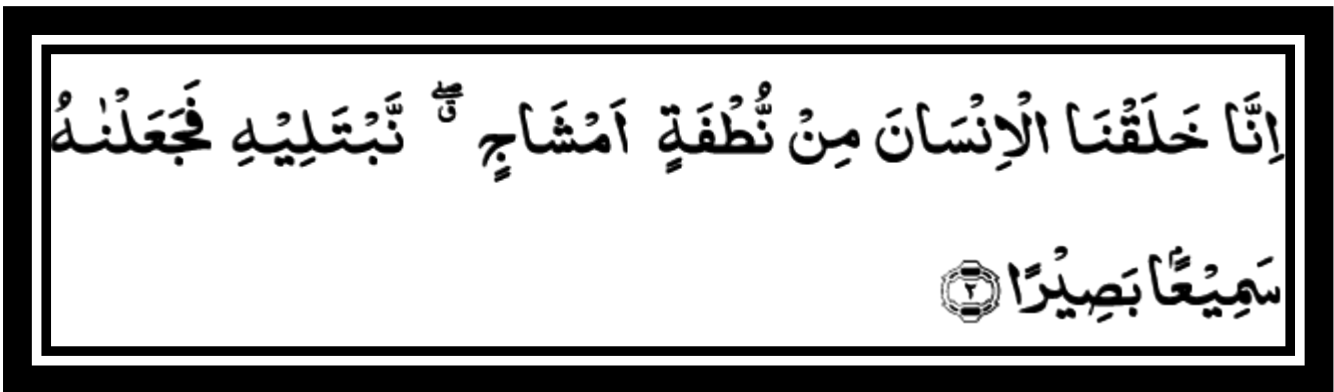

From a seed when lodged (in its place); (Sura An-Najm 53:46)

It is revealed in the Holy Quran: Sura Al-Qiyamah 75:37

Was he not a drop of sperm emitted (in lowly form)? (Sura Al-Qiyamah 75:37)

It is revealed in the Holy Quran: Sura Al-Insan 76:2

Verily we created Man from a drop of mingled sperm, in order to try him: So we gave him (the gifts), of Hearing and Sight. (Sura Al-Insan 76:2)

1. Keith L. Moore

Professor Emeritus, Department of Anatomy and Cell Biology, University of Toronto
He was amazed by the accuracy of the statements made in the Quran is the 7th
Century. Statements about embryology. Before anyone knew anything about it. These
statements in the Quran could not be based on scientific knowledge of the time so it
must have come from God.

2. E. Marshall Johnson

Professor and Chairman of Anatomy and Development Biology, and Director of the
Daniel Baugh Institute, Thomas Jefferson University, Philadelphia; Pennsylvania,
U.S.A.

He talked about embryology in the Quran. He said that Prophet Muhammad must have
got this from some source and that he has no issues that it came from God.

3. T.V.N Persaud

Professor of Anatomy, and Professor of Paediatrics and child health, University of Manitoba. Winnipeg, Manitoba, Canada.

He said for a man to make such profound statement about science in the seventh century is amazing. He said it could not be mere chance.

4. Joe Leigh Simpson

Professor and Chairman of the Department of Obstetrics and Gynaecology, Baylor College of Medicine, Houston, Texas, U.S.A.

He said he sees no conflict between genetics and Islam. He said Islam could guide science. He said the knowledge in the Quran is from God.

5. Gerald C. Goeringer

Professor and Co-ordinator of Medical Embryology in the Department of Cell Biology, School of Medicine, Georgetown University, Washington DC, U.S.A.

He said the Quran described human development and commingling of the gametes through organogenesis. He said nothing in history has seen such a feat besides current day science.

6. Alfred Kroner

Professor of the Department of Geosciences, University of Mainz, Germany.

He talked about the origin of the universe and how it would be impossible for a man like Prophet Muhammad to know about this from his own mind. He said science today proves what the Prophet said 1400 years ago.

7. Yushidi Khusan

Director of the Tokyo observatory, Tokyo, Japan.

He talks about Astronomy and using telescopes. He said Quran has true facts about Astronomy.

8. Professor Armstrong

Professor Armstrong works for NASA and is also professor of Astronomy, University of Kansas, Lawrence, U.S.A.

He was amazed by what Quran says about astronomy and how the ancient writing of the Quran agrees with modern science today.

9. Williams Hay

Professor of Oceanography, University of Colorado, Boulder, Colorado, U.S.A.

He was interested how this information in the Quran could have this science in it and that it must be from God.

10. Durja Rao

Professor of Marine Geology teaching at King Abdul Aziz University, Jeddah, Saudi Arabia.

He said that Quran could not be simple human knowledge and must be from supernatural force.

11. Professor Siaveda

Professor of Marine Geology, Japan.

He said Quran is almost unbelievable and a very remarkable book.

12. Tejtat Tejasen

Chairman of the Department of Anatomy and is the former Dean of the faculty of Medicine University of Chiang Mai, Chiang Mai, Thailand.

He said all the facts of science in the Quran can be scientifically proven today.

13. Dr. Maurice Bucaille

Born in 1920, former chief of Surgical Clinic, University of Paris, has for a long time deeply interested in the teachings of Holy Scriptures and modern secular knowledge.

He said it is impossible to explain how a book produced at the time of Prophet Muhammad could contain ideas that have only been discovered today. How could a man know these facts without the slightest of error.
