

THE END OF AN ERA FOR ISRAEL

"Israel" breathes its last

Under this heading, the Hebrew newspaper "Haaretz" published an article by the famous Zionist writer (Ari Shebet), in which he says: It seems that we are facing the most difficult people in history, and there is no solution with them except recognition of their rights and an end to the occupation ..

Shabet began his article by saying: It seems that we have passed the point of no return, and it is possible that "Israel" can no longer end the occupation, stop settlements and achieve peace, and it seems that it is no longer possible to reform Zionism, save democracy and divide the people in this country.

If this is the case, he added, there is no taste for living in these countries, and there is no taste for writing in "Haaretz", and no taste for reading "Haaretz." You should do what Rogel Alpher suggested two years ago, which is leave the country. If "Israeli" and Judaism are not a vital factor in identity, and if every "Israeli" citizen has a foreign passport, not only in the technical sense, but also in the psychological sense, then it is over. Say goodbye to friends and move to San Francisco, Berlin or Paris.

From there, from the countries of the new German ultranationalism, or the countries of the new American ultra-nationalism, one must look calmly and watch the "State of Israel" breathe its last. We must take three steps back to watch the Jewish democratic state sink. The matter may not be established yet.

Perhaps we have not passed the point of no return yet. It may still be possible to end the occupation, stop settlement activity, reform Zionism, save democracy and divide the country.

And the writer continued, I put my finger in the eyes of Netanyahu, Lieberman and the neo-Nazis, to wake them up from their Zionist delirium, that Trump, Kouchner, Biden, Barack Obama and Hillary Clinton are not the ones who will end the occupation.

It is not the United Nations and the European Union that will stop settlement activity. The only power in the world capable of saving "Israel" from itself, are the "Israelis" themselves, by inventing a new political language that recognizes the reality and that the Palestinians are rooted in this land. I urge you to find the third way in order to survive here and not die.

The writer in Haaretz newspaper confirms: that "the Israelis" since they came to Palestine, they realize that they are the result of a lie invented by the Zionist movement, during which all the deception was used in the Jewish character throughout history.

By exploiting and amplifying what Hitler called the Holocaust, the movement was able to convince the world that Palestine is the "Promised Land", and that the alleged temple is under the Al-Aqsa Mosque, thus turning the wolf into a lamb suckling from the money of American and European taxpayers, until it became A nuclear monster.

The writer sought the assistance of Western and Jewish archaeologists, the most famous of them being "Israel Felinstein" from Tel Aviv University, who emphasized that "the temple is

also a lie and a fairy tale that does not exist, and all excavations have proven that it has completely disappeared thousands of years ago, and this was explicitly stated in a large number of Jewish references." And many Western archaeologists have confirmed that ...

The last of them was in 1968 AD, the British archaeologist, Dr. "Kathleen Cabinos", when she was director of excavations at the British School of Archeology in Jerusalem, she carried out excavations in Jerusalem and was expelled from Palestine because of her exposing the "Israeli" myths, about the presence of traces of Solomon's Temple below the Al-Aqsa Mosque. ..

Where I decided that there would never be any traces of Solomon's temple, and discovered that it was what the Israelites call

The "Stables Building of Solomon" has nothing to do with Solomon or the stables in the first place. Rather, it is an architectural model of a palace commonly built in several regions in Palestine, and this is despite the fact that "Kathleen Kenyon" came by the Palestine Exploration Fund Association, in order to clarify what was mentioned in the biblical narratives, because She showed great activity in Britain in the mid-19th century on the history of the "Near East".

He stressed that the curse of lying is what persecutes the "Israelis", and day after day, slapping them on their faces in the form of a knife in the hand of Maqdisi, Khalili and Nabulsi, or with a collective stone or a bus driver from Jaffa, Haifa and Acre.

The "Israelis" realize that they have no future in Palestine, as it is not a land without a people, as they lied. Here is another writer who admits, not to the existence of the Palestinian people, but to his superiority over the "Israelis", is (Gideon Levy) a left-wing Zionist, as he says:

It seems that the Palestinians are different from the rest of humanity. We occupied their land, and we called their youths Ghanaian women, prostitutes and drugs, and we said that a few years will pass, and they will forget their homeland and their land, and if their young generation explodes the 87 uprising .. We put them in prison and said we will raise them in prisons.

Years later, after we thought that they had learned the lesson, if they returned to us with an armed uprising in 2000, it ate green and everything, so we said we would demolish their homes and besiege them for many years, and if they extracted missiles impossible to hit us with, despite the siege and destruction, so we started planning them with walls and barbed wire. .

And if they were coming to us from underground and through tunnels, until they thickened us with killers in the past war. We fought them with minds, so they seize the "Israeli" satellite (Amos)? And they enter terror into every house in "Israel", by spreading threats and intimidation, as happened when their youth managed to seize the second "Israeli" channel. In sum, it seems that we are facing the most difficult people in history, and the only solution with them is recognition of their rights and an end to the occupation.
