

Assalamu Alaikum Wa Rahmatullahe Wa Barakatuhu

Bismillahir Rahmanir Rahim

Today's Topic: "Sun and Moon mentioned in the Holy Quran"

The word **الشمس** (Ash Shams) appeared in the holy Quran 33times. **القمر** (Al Qamar) appeared 27 times in the holy Quran. There are 17 verses where both the words were mentioned.

It is revealed in the holy Quran Sura Al-Anam 6:96

1. [He is] the cleaver of daybreak and has made the night for rest and the sun and moon for calculation.

He it is that cleaveth the daybreak (from the dark): He makes the night for rest and tranquillity and the sun and moon for the reckoning (of time): such is the judgment and ordering of (Him) the Exalted in Power the Omniscient. (Sura Al-Anam 6:96)

Picture of Sun

Picture of Moon

solar year 365 days. Luman year 354 days. this is the meaning of calculation. Allah SWT mentioned these creations for human benefits in verse 6:96 to 101. And in verse 102 Allah SWT revealed that it is Allah your Lord; there is no deity except Him, the creator of all things, so worship Him. And He is disposer of all things"

It is revealed in the holy Quran Sura Al-A'raf 7:54

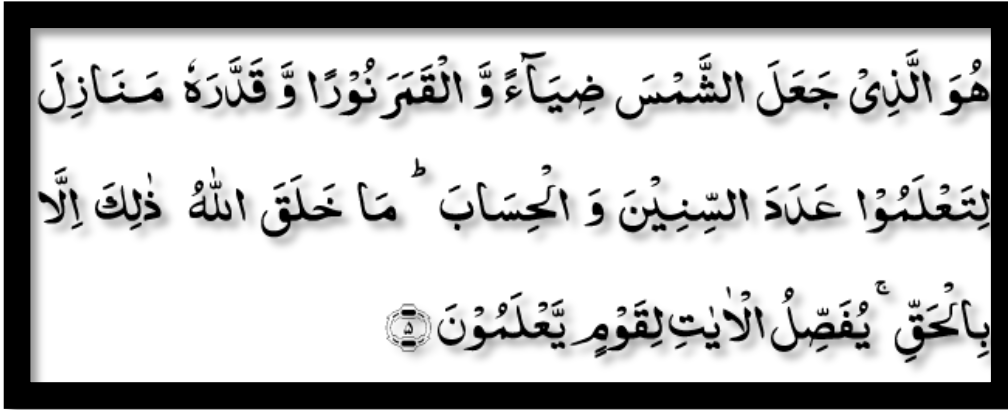

2. And (He created) the sun, the moon, and the stars, subjected by His command.

Your guardian-Lord is God Who created the heavens and the earth in six days and is firmly established on the throne (of authority): He draweth the night as a veil O'er the day each seeking the other in rapid succession: He created the sun the moon and the stars (all) governed by laws under His command. Is it not His to create and to govern? Blessed be God the cherisher and sustainer of the worlds! (Sura Al-A'raf 7:54)

It is revealed in the holy Quran Sura Yunus 10:5

3. It is He who made the sun a shining light and the moon a derived light and determined for it phases-that you may know the number and account (of time)

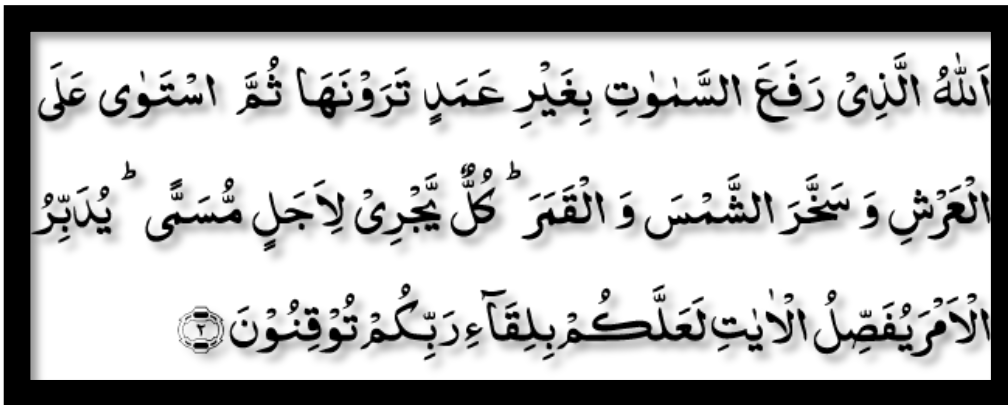

It is He Who made the sun to be a shining glory and the moon to be a light (Of beauty), and measured out Stages for her; that ye might Know the number of years and the count (of time). Nowise did God create this but in truth and righteousness. (Thus) doth He explain His Signs In detail, for those who understand. (Sura Yunus 10:5)

Allah SWT revealed in Quran; Sun a shining light and moon a derived light 1400 years ago, which the scientists discovered in recent time. Glory to Allah SWT.

It is revealed in the holy Quran Sura Ra'd 13:2

4. And made subject the sun and the moon, each running (its cause) for a specified term.

God is He Who raised the heavens without any pillars That ye can see; is firmly Established on the Throne (of Authority); He has subjected the sun and the moon (to His Law)! Each one runs (its course) For a term appointed. He doth regulate all affairs, Explaining the Signs in detail, that ye may believe with certainty in the meeting with your Lord. (Sura Ra'd 13:2)

It is revealed in the holy Quran Sura Ibrahim 14:33

5. And He subjected for you the sun and the moon, continuous (in orbit).

And He hath made subject to you the sun and the moon both diligently pursuing their courses: and the Night and the Day hath He (also) made subject to you.

(Sura Ibrahim 14:33)

Sun and Moon are moving-recent discoveries, which Quran said 14 centuries ago.

It is revealed in the holy Quran Sura An-Nahl 16:12

6. And He has subjected for you the night and day and day and the sun and the moon, and the stars are subjected by His command.

He has made subject to you The Night and the Day; The Sun and the Moon; And the Stars are in subjection By His Command: verily in this are Signs For men who are wise. (Sura An-Nahl 16:12)

It is revealed in the holy Quran Sura Al-Ambiya 21:33

7. And it is He who created the night and the day and the sun and the moon; all (heavenly bodies) in an orbit are swimming.

It is He Who created The Night and the Day, And the sun and the moon: All (the celestial bodies) Swim along, each in its Rounded course. (Sura Al-Ambiya 21:33)

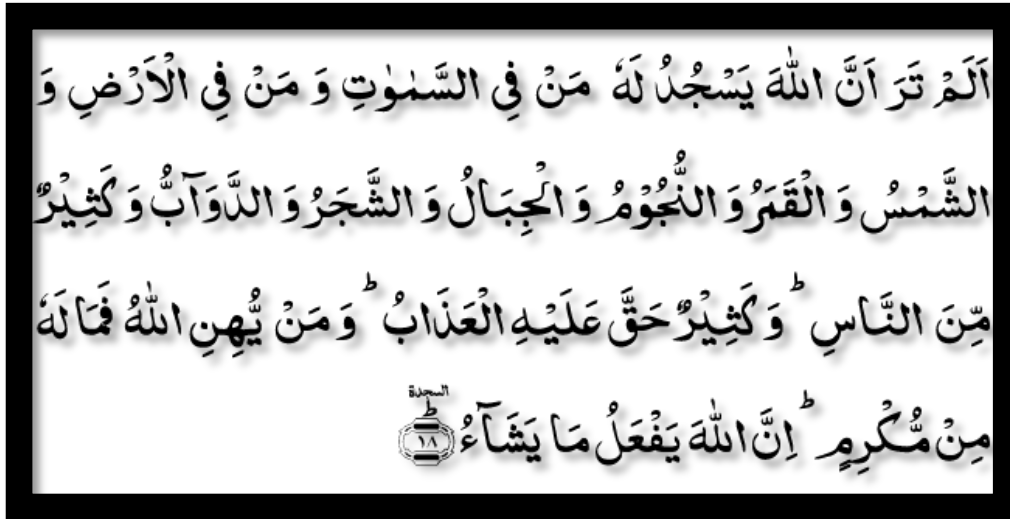

picture of solar system

All heavenly bodies are moving in orbits are recent discovery, which Quran mentioned 1400 years ago.

It is revealed in the holy Quran Sura Al-Hajj 22:18

8. Do you not see that to Allah prostrates whoever is in the heavens and whoever is on the earth and the sun, the moon, the stars, the mountains, the trees, the moving creatures and many of the people?

Seest thou not that To God bow down in worship All things that are In the heavens and on earth, — The sun, the moon, the stars; The hills, the trees, the animals; And a great number among Mankind? But a great number Are (also) such as are Fit for Punishment: and such As God shall disgrace, — None can raise to honour: For God carries out All that He wills. (Sura Al-Hajj 22:18)

Scientists theories, assumptions, imagination

The Sun

The Sun is the star at the center of the solar system. It is nearly perfect sphere of hot plasma, heated to incandescence by nuclear fusion reaction in its core; radiating the energy mainly as visible light, ultraviolet light and infrared radiation.

1. *Surface temperature: 5778 k*

*Mass 1.989*10³⁰kg*

Age 4.603 billion years

Radius 696,340 km

Distance from earth 149.6 million km

2. The Sun accounts for 99.86% of the mass of the solar system.

- ❖ **Over 1 million Earth could fit inside this sun.**
- ❖ **One day the sun will consume the earth.**
- ❖ **The sun is travelling at 220 km per second.**
- ❖ **74% mass of Sun Hydrogen and 24% Helium.**
- ❖ **Remaining 2% includes trace amounts of iron, nickel, Oxygen and all other elements we have in the solar system.**
- ❖ **Sun is in middle age. After about 5 billion years from now the sun will shrink back relatively tiny white dwarf. Before that it will consume inner planets including Earth.**

The Moon

- 1. Moon's surface is Dark. It appears very bright because of reflectance of sun light.**
- 2. Its gravitation causes ocean and seas tides, body rides and slight lengthening of the day.**
- 3. Moon always shows earth the same face.**
- 4. Earth's only natural permanent satellite.**
- 5. Moon 400 times smaller than Sun.**
- 6. Moon 400 times closer to Earth.**
- 7. Drifting away 3.8 cm each year from earth.**
- 8. water in the form of ice trapped within dust and minerals of moon.**
- 9. Distance to Earth 384,000 km.**
- 10. Gravity 1.6 m/sec²**

Click here <http://www.morningbrightness.fi/>

- 11. Orbital period: 27 days around the earth.*
- 12. Age 4.53 billion years.*
- 13. Density: 3.34 g/cm³*
- 14. Diameters One fourth of earth.*
- 15. Exosphere is the atmosphere of earth.*
- 16. Moon helps stabilize our planet earth's climate as moderate.*
- 17. Mass: 7.35×10^{22} kg (0.01 Earth)*
- 18. Surface temperature: 233 to 123° C.*
- 19. Crewed landing Apollo 11 in 1969.*
- 20. One's weight will be one sixth of earth in moon.*

Dears Brothers and Sisters the people who thinks and understands the meaning of Quran inshaAllah will get guidance from Him SWT. Let us Pray, O Allah SWT please guide us to the right path so that our Iman get strong and we do good deeds in this world which inshaAllah will protect us from hell fire and we hope that we will get rewards from you in the Day of Judgment.

Ameen

Assalamu Alaikum Wa Rahmatullahe Wa Barakatuhu
