Summary

1. Hindu religion started around 1,500BC, Islam started at 610AD (2,100 years later)
2. India has been doing business with Arabian countries. Over time Hindu scriptures were updated with many Islamic names, events, Abraham, Muhammad, Kabah, etc.
3. The Vedas contain many prophecies about Muhammad. Some European and Hindu translators of the Vedas have explained the **mantras (verses)** on his **life events, companions, Kabah, Makkah, Madinah, Arabia, victory of Makkah** and other events using the terminology of the Hindus, such as purification rituals, and lands and rivers in India. Some mantras **containing prophecies** are intermixed with phrases, and it may be that these were **commentaries and explanatory notes** on the prophecies, which later became a **part of the prophecy in Hindu scripture**.
4. Most people **do not know what is in the Hindu Scripture** as they are **only interpreted (touched/handled)** by upper class Brahmans with **exclusive authority**.
5. Over time many scholars did research and determined these **connections/mantras** about **Islamic events, Muhammad's coming, his companions, his character, his life events, savior of humanity, etc.**
